Facebook:

What has been posted to make a regular feature out of archived photos etc.
Every time we send out bulk email, we should also post on facebook with the link to the email. (as has been done with the badge post)

LinkedIn

Anything we post on Facebook also be posted on LinkedIn?

Rosa hosted CRM (instead of HubSpot)

We use a free version of HubSpot it is limited in what we can do.
Investigating running a CRM on our own server. This can be done as an add-on to our current WordPress or as an installed package that is available to us as part of our subscription.
One of the reasons for a full CRM is that it could be very useful for organising our Centenary Celebrations.

Google Drive and Google Photos Update

Duplicate photos (hundreds of them) have been removed
Photos have all been copied to Google Photos (separate to Google Drive)
Duplicate document clean-up on Google Drive
Any other documents that should go to Google drive. (eg Andrew sent me certificate of incorporation etc)

Add to tasks (assign to Chris):

Update our membership list in response to unsubscribes etc post-mailout
Update membership list in response to gathering details from badge mailings.
Work with Jaccie to clean up documents on Google Drive. (I have already cleaned up photos)
